

AN UP CAMPAIGNS  
STARTED OVER STATE

an up campaigns are now in all parts of the state and all towns are urged to conduct campaigns in letters sent by the Oklahoma Public Health and State health department. County public health commissions of the public health association are conducting the work in the counties.

essy of eradicating the house fly is another important connection of the campaigns and the house fly is taken up not only from the swat fly stand but from that of a campaign to clean the breeding places of flies, insect garbage cans, rubbish and neglected corners of all.

Clean out the filth and you beat the flies in your neighborhood. A death blow. The problem of sanitation, sewage disposal is another important connection. These two factors, the points out, must have careful attention in any such campaign. They must be kept covered and of regularly, weeds should be removed. Burn all dead vines, and grass, particularly in stacks.

connection with the campaign, Oklahoma Public Health association has prepared a number of attractive and effective literature. A fly check to be issued to each of their father and mother. The swatting of 1,000,000 a feature of the literature. The week which is endorsed by the state bears a record rate in because the death of one fly prevents 1,555,200,000 September. Another piece of literature is an attractive Swat poster. These and other pieces of literature may be had at a small cost on application to the Oklahoma Public Health Association, 315 Oklahoma City, Oklahoma.

NG POISON DISCOVERED  
Chemical Warfare Service of United States had discovered a poison so strong that it will burn the skin it barely kills. Falling like a mist of rain, it destroys all life in its path. One carrying two tons of the could cover an area 100 feet by seven miles long in one day could deposit enough of it to kill every person in that area. The use of the poison an enemy could be destroyed in a day.

STRUCK BY AUTOMOBILE  
The six-year old daughter of Mrs. George Lindley was struck by an automobile when she was struck by an automobile driven by Mrs. Rosa. The accident happened on the street about Eighth Avenue. Mrs. Lindley had her car on the north side of the street facing west, and the child ran out to cross the street. The car was driving east at the time, and the child, stepping out behind her mother's car, stepped into the middle of the street. The car struck her in the back, hurling her to the pavement. The force of the impact being so great, her face being bruised.

The Hole In Your Pocket

Are you troubled by having your money "burn a hole" in your pocket? That is a common fault of money. If you have your money in the bank whether it be much or little, it will not burn any holes and it will be there when you need it.

Money carried on the person is a temptation to spending. Money in the bank does not offer this temptation. You may hesitate before writing a check where you would not hesitate to spend if you had the money with you.

We offer you the advantage of our banking facilities and invite you to open a checking account with us.
